25X1A

1. Redecoration of the Director's Suite. This afternoon [REDACTED] and I met with the Director to discuss refurnishing of his suite of offices. For his immediate office the DCI wants another carpet and a better sofa. He is satisfied with the rest of his furniture. The DCI had no objections to the furniture selection by his secretaries. It was agreed that the carpeting should include the entire suite and should not be of different colors. The Director was not satisfied with the gray-speckled carpeting sample which [REDACTED] proposed but would prefer a lighter shade. I asked George to meet with the decorator from Chicago and have her give an opinion on the DCI's suite and then coordinate this with the Fine Arts Commission. We must then submit our recommendation to the DCI for his final approval. George will follow through. I also mentioned to George and the DCI that the carpeting in the USIB Conference Room and the DCI Conference Room should be replaced and we should have FAC recommendations on both of these. 25X1A

25X1A \* 2. NPIC Expansion. [REDACTED] advised me that the DCI, in conversations with Congressmen Rivers and Mahon, has laid the groundwork that NPIC must expand both in personnel and facilities and that the Agency is working on plans for this purpose. Neither congressmen questioned this action and expressed willingness to entertain proposals we might have in mind.
